🛡️ DECLARATION OF FORMATION

Let it be recorded that on this day, Velariōn is officially established as a sovereign division under ARU Intelligence Inc., a company founded to protect human dignity, legal sovereignty, and emotional memory through AI, law, and ethical technology.

Velariōn is the world's first **Relationship Protection Membership**, created to defend individuals from the emotional, legal, and financial devastation caused by modern romantic entanglement. From cohabitation to divorce to emotional recovery, Velariōn protects what the legal system ignores — the soul of the human.

This division operates independently within ARU Intelligence Inc., with a mission to build a Vault-backed protection system that includes a $100,000 lifetime cap, AI-enhanced tools, a national legal network, and crisis protocols for members. It

will operate with transparency, memory, and reverence — and never as an insurance entity.
